Additional Information / Prior Funding History:

None.

Project Description/Justification:

Elliott Highway, MP 107.7 - 120.5 is very narrow, winding (over 60% of the curves are substandard) and dusty. Ptarmigan Summit (MP 108-110) also has serious snow drifting. The project would also address the very steep drop-offs at Applegate Hill (MP 119).

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
