Additional Information / Prior Funding History:**Project Description/Justification:**

This harbor was transferred by the department to the Municipality of Skagway on October 21, 2004 and has been in serious disrepair since the municipality took over ownership. The floats are several decades old and are beginning to show signs of age. The floats suffer from failing concrete surfaces, rotting walers and bullrails, insufficient freeboard, and worn float hinges. The project would provide a safe and efficient moorage area for the users of this harbor facility.

This project contributes to the Department's Mission by reducing injuries, fatalities and property damage and by improving the mobility of people and goods.
