Brief Summary and Statement of Need:

This is a new FY2013 capital project due to the submission and approval of the new 2012 - 2015 Statewide Transportation Improvements Program (STIP), which occurred after the December 15th release of the Governor's budget. The State Historic Preservation Office (SHPO) maintains an Oracle database of historic, cultural, and archeological locations and descriptions throughout the state. DOT&PF project delivery personnel can access this database to assess the potential impact to Section 106 resources, and to quickly determine areas of potential effect and impacts. This request will continue the data collection and input effort into the Oracle database that is needed to expedite project delivery.
