Inter-Island Ferry Authority - Hollis/Clark Bay Ferry Terminal Improvements

FY2013 Request: $500,000
Reference No: 54948

AP/AL: Allocation
Category: Transportation
Location: Hollis
Impact House District: Ketchikan (HD 1)
Estimated Project Dates: 07/01/2012 - 06/30/2019
Appropriation: Surface Transportation Program

Project Type: Construction
House District: Ketchikan (HD 1)
Contact: Pat Kemp
Contact Phone: (907)465-3900

Brief Summary and Statement of Need:
This is a new FY2013 capital project due to the submission and approval of the new 2012 - 2015 Statewide Transportation Improvements Program (STIP), which occurred after the December 15th release of the Governor's budget. This project will design and construct new marine transfer structures at the ferry terminal.

Additional Information / Prior Funding History:
None.

Project Description/Justification:
The work includes modification or replacement of the shoreward bridge abutment, replacement of the existing transfer bridge and bridge bearings, replacement of the existing bridge support float system and placement of new float pile restraints, replacement of six existing mooring and breasting dolphins W1 and E1-E5 and placement of a new turning dolphin on the west side of the bridge. The project will also include the removal of accumulated stream sediments within the region of the bridge support float and construction of an embankment extension or other necessary creek diversion structures to minimize sedimentation from the nearby stream.
