FY2014 State Funding Request:	(\$758,000)
Project Deficit:	\$0

Detailed Project Description and Justification:

This project is to replace the original roof on Willow Elementary. The deterioration of this roof system has accelerated in recent years and is now well beyond temporary patching. The roof system in place is the original built-up asphalt, metal, with a spray on repair done over ten years ago. Most of this roof system is thirty plus years old, and failing. Each year thousands of maintenance dollars have been spent on leaks. Each new occurrence is more difficult than the last to find and fix. This is disruptive to the students and staff and has had a direct negative effect on the educational process.

Project Timeline:

Project will commence immediately upon receipt of funds.
