| Total Project Cost: | \$1,400,000 |
| Funding Already Secured: | (\$0) |
| FY2014 State Funding Request: | <u>(\$1,400,000)</u> |
| Project Deficit: | \$0 |

Funding Details:

n/a

Detailed Project Description and Justification:

There is a residential subdivision in Elim which is not protected by a fire response system. In the event of a fire, local response crews do not have access to a fire hydrant in order to combat a fire in this area. All the other subdivisions in town have access to hydrants and the community fire response system is structured to use hydrants in the event of a fire. Thus, there is no other means of fire response available to the community. This severely impairs the community's ability to contain a fire in this subdivision and exposes its residents to loss of life and property. Moreover, an uncontained fire incident in this subdivision has the potential of growing into a fire which could threaten the entire community. This project proposes to extend the existing hydrant system in order to serve this subdivision and mitigate the risk posed by fire.

Project Timeline:

December 2013 -- Receive funding
 March 2014 -- Execute Cooperative Project Agreement
 April 2014 -- Begin project design work
 September 2014 -- Complete design and receive approval to construct
 October 2014 -- Begin procurement of materials
 June 2015 -- Begin construction
 September 2015 -- Complete construction
 November 2015 -- Final project approval and project close out

Entity Responsible for the Ongoing Operation and Maintenance of this Project:

The City of Elim

Grant Recipient Contact Information:
