**Brief Summary and Statement of Need:**

Reappropriate the remaining Engineering Management and Travel (EMT) funds from closed Municipal Matching Grant (MMG) projects to active projects where EMT was not included or was not sufficient. For MMG projects appropriated before FY2007, funding for EMT was not included with each project. Instead, a separate appropriation was established to fund this work. Beginning in FY2007, EMT costs were included with each project so that it was clear how much each project will cost in total. These EMT funds are leftover from projects that have been completed. Reappropriated funds will be used to close out projects that lack sufficient EMT funding to be completed.
