Project Description/Justification:

Deferred maintenance needs at the Alaska Army National Guard Hangar in Nome include the repair and/or replacement of the hangar door and the cement parking apron. The current parking apron concrete is cracking, failing, and creating debris that can damage aircraft. Replacement of the hangar doors is required due to the excessive wear in an arctic environment. A new hangar door will provide a lighter and better insulated door to reduce ongoing operation and maintenance costs. Priorities and cost estimates may need to be changed to accommodate emergency maintenance projects not listed, actual project costs, and other considerations.
