<p>Transfer Analyst Programmer V (PCN 20-2024), range 22, from Juneau to Anchorage. The department made significant changes to the organizational structure of the Programming and Development Unit (Unit) within the Information Technology MIS component. Through successful recruitment of information technology professionals, the Unit is now able to support and develop new features, functions, and enhancements to the Alaska Corrections Offender Management System (ACOMS); thereby, eliminating expensive vendor contracts. This position plays a key role in the Unit, however, it is the only position within the Unit located in Juneau. Relocating this position to Anchorage will co-locate the team in one office and reduce travel costs incurred by traveling from Juneau to Anchorage for in-person developer collaboration meetings.</p> <p>A corresponding transfer of a vacant Special Assistant to the Commissioner II position (PCN 20-0011), range 23, from Anchorage to Juneau will result in a net-zero change in position count at each location (Juneau and Anchorage).</p>

Unallocated reduction to prevent over-appropriation during inmate transition from Colorado to Alaska.												
The unallocated adjustment, as identified by the 2012 Legislature, anticipates either a savings in the Out of State Contract allocation (if inmates are returned to Alaska ahead of schedule) or a savings in the Goose Creek Correctional Center allocation (if the transfer to Alaska is delayed).												
This adjustment is being applied in full to the Out of State Contractual component based on the current anticipated transition schedule.

Transfer authority to bring the Goose Creek Correctional Center (GCCC) to full operations in FY2014. This represents the remaining operational needs for the final 34% of the total hard beds (including the Special Management Unit and all segregation beds); 38% of staffing requirements; and, the remaining 50% contractual services to support the needs of this incarcerated population.												
Full operations will increase the general offender capacity at GCCC to 1,480 allowing all remaining offenders held in the out of state contract facility to be brought back to Alaska. This final phase will complete the recruitment and training of the remaining staff and allow for the transition.

<p>Position location change and transfer of vacant Correctional Officer IV position (20-8133), with funding, from the Spring Creek Correctional Center located in Seward to the Institution Director's Office located in Palmer. This position will act as a liaison between the Division of Institutions and the Division of Probation and Parole with a specialized focus on developing enhanced offender supervision processes within the institutions and in the communities. The Department of Corrections is experiencing increased gang and threat group activities within the facilities and in the community. This position will interface with the various state and federal agencies that monitor this activity.</p>

<p>After reconciliation of the current personal services needs within this component, authorization is being transferred to meet the anticipated expenditures in the contractual services line. Available authorization is due to turnovers, realignment of positions and delayed recruitments of various positions within this unit. Authorization from existing components has historically been reallocated during the operating year to meet the needs of the Director's Office. This authorization will assist in meeting the expenditures associated with contract support, licensing renewals, operating hardware support and other information technology services. This transfer is necessary to meet the on-going contractual obligations within this component for FY2013.</p>

Transfer authorization to bring the Goose Creek Correctional Center (GCCC) to full operations in FY2014. This represents the remaining operational needs for the final 34% of the total hard beds (including the Special Management Unit and all segregation beds); 38% of staffing requirements; and, the remaining 50% contractual services to support the needs of this incarcerated population.												
Full operations will increase the general offender capacity at GCCC to 1,480 allowing all remaining offenders held in the out of state contract facility to be brought back to Alaska. This final phase will complete the recruitment and training of the remaining staff and allow for the transition.

The Regional and Community Jails Program provides funding to 15 communities for the short-term confinement of persons detained under state law. In April 2007, the Division of Legislative Audit (DLA) completed their audit on the program. The purpose of the audit was to review and assess the equity of funding allocated through the Regional and Community Jails Program. DLA recommended that the Department of Corrections (DOC) restructure the program by identifying and funding core operating functions.

DOC began a full-scale analysis of the Regional and Community Jails Program to develop an equitable funding methodology for participating communities in FY2010. At that time, DOC identified the various and allowable types of activities and costs associated with operating the community jails using standards adopted by the Governor's Task Force on October, 1994. These standards are still valid and in use today.

The analysis was completed and the DOC standards for community jail operations and recommendations from the 2007 Legislative Audit were applied to the analysis. The DOC recommended full funding of core operating functions in two phases. Phase I addressed expenditures (minus personal services) required to support the core operating functions of the jail. Funds for Phase I was provided in FY2012 and FY2013.

Phase II addresses the personal services expenditures of the regional and community jail analysis thereby provides each jail with full funding for costs to operate. Each jail was required to provide costs necessary to operate for FY2014. To determine allowable costs of operation, each jail provided budget reports which were then reviewed by the department's Internal Auditor and Community Jail Administrator for reasonableness, comparison to prior year financial data, work schedules to support number of staff, salary schedules, analysis of employer-provided employee benefits, and, if needed, inquiries of community jail supervisors and community financial staff.

The analysis determined the salaries and benefits of certain positions charged directly to the Regional and Community Jail Program. For any budgets that directly charge the positions of Chief of Police and administrative staff; these positions were backed out of the community jail budget. Additionally, any "administrative" or indirect charges for other community staff that were traditionally charged to community jail budgets from other departments within the community's total budget were backed out. In its place, the department is recommending a 15% administrative overhead or indirect cost added to the base budget provided by the community and accepted by the department. The 15% indirect rate is identified in the Community Jails Standards. The following categories of cost factors are included: (1) City Manager; (2) Chief of Police; and, (3) administrative positions (personnel, accounting/payroll, legal assistance, and clerical support). The department will continue to work with the communities in budget preparation and analysis of their financial and budget reports. The

The Department of Corrections (DOC) has professional services contracts with six Community Residential Center (CRC) providers to help meet the security and residential needs of adult offenders in the State of Alaska. These negotiated contracts allow for an annual Consumer Price Index (CPI) rate increase for each contract. Without additional funding, the department will not be able to pay CRC contracts in full with the CPI increase.

The DOC uses CRC beds as a cost-effective means of providing correctional services under supervision to offenders who are preparing to re-enter back into the community which then allows more expensive hard beds in the correctional facilities to be used for serious, violent offenders. Utilizing CRC beds meets the department's goal of supervised re-entry.

The benefits associated with using Community Residential Centers are:

- The CRC provides a safe environment with a lesser level of supervision in preparation for the offender being released back into the community;
- The CRC provides housing and a level of supervision while the offender obtains employment prior to being released into the community;
- The CRC provides access to community resources such as treatment and job service which may not be available within the jails and prisons;
- The CRC allows a stable environment from which to establish or re-establish family and community support.

Mental Health Clinician II (PCN 20-1083) - Palmer to Anchorage

This position is being reassigned from the Palmer Coordinated Resources Project (PCRP Palmer Mental Health Court) to the APIC (Access, Plan, Identify, Coordinate) Reentry Program located in Anchorage. Funding to support this position within the Anchorage area was received through the FY2013 budget process as part of the Mental Health Trust Recommendations.

Effective in September 2012, the Alaska Court System implemented changes to the Palmer PCRP case coordinator from DOC Mental Health to a DHSS ASAP Probation Officer. Due to these changes by the Palmer PCRP, this position is no longer needed in the Palmer location and is being reallocated to meet the approved increased support of the APIC program in the Anchorage area.

Mental Health Clinician III (PCN 06-5346) - Anchorage to Palmer

This location change is to correct the duty station of this position. This position was relocated from Anchorage to Palmer prior to 2005, however, has remained incorrectly reported in the Alaska Payroll System, On-line Position Description System and the Budget system. This change record will update all systems to accurately reflect the assigned location.

Transfer PCN 20-6552 from Eagle River to Anchorage and reclassify from Nurse II (R19) to Mental Health Clinician IV (R23).

This change was held from the FY2013 enacted budget to implement with the FY2013 Management Plan as a review of the Inmate Health Care needs were identified and resources made available to meet these needs. This change is necessary to provide administrative and operational oversight of the Behavioral Health Care Unit. This position will directly supervise the mental health staff in the delivery of services provided to the mentally ill offenders that are under the custody of the department. This position will oversee all areas associated with mental health services to ensure quality services are available and provided in the most economical and effective manner. This position will also provide direct mental health services to offenders as needed.

This position is funded by general funds/mental health within the Behavioral Health Care component. Funding is sufficient to meet the costs of this position at the new salary of \$129,837 due to the prior position costs of the Nurse II was \$132,679. Future costs will be met due to other position turnovers and vacancies of this component.

The department's effective date was previously requested as 07/01/2012 or as soon as approval is received for this change.

Beginning in FY2008 the Trust, in partnership with the Department of Corrections (DOC) has focused on increasing mental health clinical capacity within correctional facilities.

Currently, the mental health clinical staff at the Hiland Mountain Correctional Center (HMCC) are unable to keep pace with the increasing demand for mental health services of incarcerated women at HMCC. The DOC mental health staff currently serves a population of 420+ female inmates, of which 120-30 is currently active on the mental health caseload, an increase of approximately 20% since last year. DOC will need another position for a clinician to manage the high needs of these offenders.

The demand for mental health services has also outgrown the current staffing ratios at DOC facilities in the MatSu Valley (Palmer Correctional Center (PCC), MatSu Pre-Trial (MSPT) and Pt. Mackenzie (PTMC)). Currently two Mental Health Clinicians cover three facilities serving 734 inmates. The number of remands at MSPT has gone from 162 per month in 2002 to 342 a month in 2011, as a result almost doubling the number of inmates coming in contact with Mental Health.

Transfer vacant Health Practitioner I position (PCN 20-4330) from Bethel to Kenai. Recruitment for this position has been on-going since 2011 and remains unsuccessful. The intent is to contract with a local provider for to meet the needed services within the Bethel area. This allows for this position to be utilized in the Kenai area where medical needs have increased over the past five years due to the increased population at the Wildwood Correctional Center.

<p>Transfer vacant Criminal Justice Technician II position (PCN 20-6615) from Palmer to Anchorage. A technical adjustment was completed in the FY2012 Management Plan process changing the duty station of this position from Anchorage to Palmer. However, this position is now vacant and changes in the requirements of the General Education Development (GED) Program have significantly changed the current duties of this position. Relocating this position back to Anchorage and assigning the new duties for tracking, reporting, monitoring of program data, will expand the department's abilities to accurately report the effectiveness and efficiencies of the programs currently in place.</p>
