**Brief Summary and Statement of Need:**

This is the number three project on the November 5, 2012 Capital Improvement Projects, School Construction Grant Fund list. Construction of a 32,245 square foot addition and renovation of the existing 20,520 square foot school, built in 1981 and 1986, will include instructional classrooms, a library/media center, gymnasium, specialty classrooms for industrial arts and science, teacher support space, as well as other required supplementary space. This project was funded in FY2012 at \$28,489,312. Additional funding is needed due to construction cost increases that exceed the original cost estimates. The school currently operates at 241% capacity with approximately 127 un-housed students.
