Brief Summary and Statement of Need:

This project will acquire a new NetApp 2240 dual head filer with drives. This new appliance will replace an older model that is reaching the end of its lifespan and requires replacement. This is one of two data storage devices that the Alaska Permanent Fund Corporation (APFC) uses and it provides the necessary redundancy and data storage capacity to allow APFC staff to effectively manage and account for Permanent Fund investments. There will be an on-going maintenance fee after the initial three-year warranty period.
