Brief Summary and Statement of Need:

This is phase four of a five-year replacement cycle of the computer, server and printer replacement project. The agency objective is to replace personal computers, printers, servers, network attached storage and supporting devices such as uninterruptible power supplies (UPS) that have exceeded their useful life. With 274 computers in use within the division, a five year replacement plan allows for the replacement of 55 computers annually as well as several servers and duplex printers.
