None.

Project Description/Justification:

The Department of Transportation & Public Facilities (DOTPF) acquired the Hanger.Net building and lease interest on Merrill Field to facilitate the expansion of the Glenn Highway. A building inspection identified structural concerns which limit the usability of the facility. To satisfy the terms of the lease with Merrill Field that the DOTPF assumed when the building was purchased, the department must improve the facility so that it may be occupied or demolish the facility. Project funds will be used to make minimal improvements to the facility such that the lease can be resold or used to demolish the building.
