Project Description/Justification:
All states desiring federal funding for surface transportation projects must carry out a "continuing, comprehensive, and cooperative" transportation planning process. A portion of the federal transportation funding apportioned to the state is allocated to carry out the required planning tasks. This includes long range state transportation planning; development of the State Transportation Improvement Program (STIP); consultation and coordination with other state agencies, local governments, and federal agencies; public involvement; data collection and analysis; periodic federal reporting; and management systems as required in the surface transportation authorization act: Moving Ahead for Progress in the 21st Century Act (MAP-21).

The STIP and current Long-Range and Area plans can be accessed at: *http://www.dot.state.ak.us/*.
