Prior Funding History / Additional Information:**Project Description/Justification:**

The objective of this federally required program is to ensure the lawfully required revenue is available for highway programs by increasing motor fuel tax compliance. The scope is to implement automated tests to analyze and compare tax returns filed; contact taxpayers to resolve potential compliance issues; perform analysis and audits as required to confirm taxpayer information on both interstate and international fuel imports. For the coming fiscal year, additional refund claim audits will be performed and increased compliance work will be accomplished through data-matching of imported fuel with reports from the Homeland Security Administration.

In federal fiscal year (FFY) 2011 this program resulted in the collection of an additional \$40,294 in taxes, \$33,190 in penalties, and the denial of \$48,185 in claimed refunds for a total of \$121,669 in additional revenue collected. Additional revenue collected in FFY2010 was \$157,926 and in FFY2009 was \$298,277 as a result of this program.
