**Project Description/Justification:**

Provide miscellaneous airfield and terminal improvements. Typical projects result from winter conditions, facility and equipment failures, and changed operating requirements by the airlines, security requirements, and Federal Aviation Administration (FAA) airport certification. Resolve minor deficiencies and solve problems created by unforeseen circumstances for both the airport and leaseholders.

The Airport needs to react quickly to make needed repairs and improvements outside the detailed project specific Spending Plan. The projects are often needed to meet changed conditions created by airline operations or FAA requirements. The projects will resolve minor deficiencies and solve problems for both the airport and users
