

Statewide - Various Airports Aeronautical Surveys

FY2014 Request: \$1,000,000

Reference No: 49340

AP/AL: Allocation

Project Type: Construction

Category: Transportation

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Steven Hatter

Estimated Project Dates: 07/01/2013 - 06/30/2018

Contact Phone: (907)269-0730

Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

This project consists of conducting aeronautical surveys at various state owned airports for development of approach procedures.

Project Description/Justification:

The Federal Aviation Administration (FAA) requires public airport owners to conduct aeronautical surveys for baseline airport data to support development of Airport Layout Plans, project designs, and new approach procedures as part of the National Airspace System (NAS). Whenever a public airport owner anticipates moving a runway threshold, FAA requires an aeronautical survey in order to maintain existing approach procedures. Losing an established approach procedure at an airport for lack of an aeronautical survey can have severe impacts on a community. Inclement weather conditions would prevent aircraft access to the airport, impacting the community's access, medical evacuation capability, economy and quality of life.
