**Project Description/Justification:**

This project will replace a one lane steel stringer wooden decked bridge with an extremely low sufficiency rating of 14. Planned since 1991, this bridge is the only road access to Ninilchik Village and is failing and must be completely replaced. Both the abutments and piling have failed and temporary repairs by Maintenance and Operations are insufficient for the long term. Ninilchik has approximately 700 residents and offers recreational and commercial fishing, as well as tourism activities and is home to historically and archeologically significant sites within the Kenai Peninsula Borough.
