

**Fairbanks International Airport - Advanced Project Design and Planning**      **FY2014 Request: \$25,000**  
**Reference No: 56938**

**AP/AL:** Allocation      **Project Type:** Construction  
**Category:** Transportation  
**Location:** Fairbanks Areawide      **House District:** Fairbanks Areawide (HD 1-5)  
**Impact House District:** Fairbanks Areawide (HD 1-5)      **Contact:** Steven Hatter  
**Estimated Project Dates:** 07/01/2013 - 06/30/2018      **Contact Phone:** (907)269-0730  
**Appropriation:** Airport Improvement Program

**Brief Summary and Statement of Need:**

Complete planning analysis, financing plans, preliminary engineering, environmental, surveying, geotechnical investigation, cost estimating, feasibility analysis, design of future capital improvement projects to prepare for future airport and tenant development. This is needed to do advance work on projects to better define their scope and cost prior to initiation of the final design and construction.

**Prior Funding History / Additional Information:**

None.

**Project Description/Justification:**

This project provides planning analysis, financing plans, preliminary engineering, environmental, surveying, geotechnical investigation, cost estimating, feasibility analysis, and design of future capital improvement projects to prepare for future airport and tenant development.

Design funds are needed prior to construction funds to avoid impacts on airline fees, allow estimates to be refined before constructing, and place the airport in a better position to compete for federal discretionary funds. Funds allow the airport to timely complete design, environmental permitting, and community involvement efforts needed for Federal Airport Improvement Program (AIP) funding. Some projects will be designed to a schematic level. Completion of studies, plans, cost-benefit analysis, and other evaluations provide critical information and advance preparation for future projects.
