| **Motor Vehicle - Real-Time Driving Records** | **FY2015 Request:** | **$350,000** |
| | **Reference No:** | **58168** |

AP/AL: Appropriation

Project Type: Information Technology / Systems / Communication

Category: General Government
Location: Statewide
Impact House District: Statewide (HD 1-40)
Estimated Project Dates: 07/01/2014 - 06/30/2019

House District: Statewide (HD 1-40)
Contact: Cheryl Lowenstein
Contact Phone: (907)465-5655

Brief Summary and Statement of Need:
Department of Motor Vehicles (DMV) real time driving record system will change insurance companies' access to Alaskan drivers' records and will allow for insurance quotes to be given on the same day via real-time updates to driving records. This project also affords other authorized organizations real-time access to Alaska driving records.

Funding:	FY2015	FY2016	FY2017	FY2018	FY2019	FY2020	Total
GF/Prgm	$350,000						$350,000
Total:	$350,000	$0	$0	$0	$0	$0	$350,000

Prior Funding History / Additional Information:

Project Description/Justification:
This project will change insurance companies' access to Alaskan drivers driving records from a complicated nightly batch process and an FTP server to a real-time interface. Alaska residents will receive accurate insurance quotes on the same day rather than waiting for at least 24 hours. This also affords other authorized organizations real-time access to Alaska driving records.

What is the purpose of the project?

This project will enable fast and accurate insurance quotes and acceptance for Alaskan drivers and reduce the complexity of adding new authorized subscribers (insurance companies) to driving records.

Is this a new systems development project? Or, an upgrade or enhancement to existing department capabilities?

State of Alaska Capital Project Summary
FY2015 Governor Amended
Page 1

Department of Administration
Reference No: 58168
Amendments as of March 12, 2014

This is an enhancement to existing capabilities.

Specifically, what hardware, software, consulting services, or other items will be purchased with this expenditure. Include a line item breakdown.

System Design	100.0
Software Installation / Programming	150.0
System Integration and Testing	100.0
Totals	350.0

How will service to the public measurable improved if this project is funded?

Alaska residents will receive accurate insurance quotes on the same day rather than waiting for at least 24 hours, thus allowing them to make accurate financial decisions, such as buying a new car, this instead of relying on estimated quotes from insurance companies.

Does project affect the way in which other public agencies will conduct their business?

While this project does not force any other public agencies to change their business processes it does afford the option for authorized agencies to have real-time access to driving records.

What are the potential out-year cost implications if this project is approved? (Bandwidth requirements, etc.)

- will reduce the time and complexity to add new authorized subscribers to driving records.
- will reduce space requirements on FTP servers.
- may increase bandwidth requirements slightly to accommodate XML documents.

What will happen if the project is not approved?

Alaska residents will continue to wait at least 24 hours before their driving records can be verified by insurance companies, to provide accurate insurance quotes.
