Total Funding to complete project \$175,000.00

Primary House District: 27 **Secondary House District(s):**

Primary Senate District: N **Secondary Senate District(s):**

Project Description

Principal's Priority 1

Replacement of 30+ year old student desks, and installation of cabinets and lockers for teacher and student storage. Our school's open-concept design does not provide for safe or adequate storage of teacher and student materials and belongings. Update classroom furniture and fixtures for our K-5 school to accommodate innovative, interactive, teaching and learning practices and technology conducive to preparing students for the 21st Century work places.

Benefits if Project is Funded

We need to update our 40+ year old classroom furniture with innovative furniture that is easily reconfigured to meet a variety of interactive, cooperative teaching and learning. A more effective and efficient way to store student belongings – eliminating the tripping hazard of items falling on the floor throughout the course of the day. Closed student storage will help us curtail the spread of lice, bed bugs, etc. from personal items – coats, boots, etc. being stored side-by-side on open coat hooks. It will also provide better security for students' personal belongings. If this project is not funded, our students will have to continue to work in classrooms that are not up-to-date with their peer, impacting their ability to participate in the wide variety of learning configurations needed in a more contemporary educational setting.

Impacts if Project is not Funded

of Students impacted by project 450

Project Start Year 2014

Project Finish Year 2015

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has had a public review process **Yes**
