Juneau - Fire Department Mobile Data Terminals

State Funding Requested: \$66,000**House District: Juneau Areawide (31-32)**

One-Time Need

Brief Project Description:

Install mobile data terminals in first response fire department apparatus.

Funding Plan:

Total Project Cost:	\$71,000
Funding Already Secured:	(\$5,000)
FY2015 State Funding Request:	<u>(\$66,000)</u>
Project Deficit:	\$0

*Funding Details:**No previous funding history.***Detailed Project Description and Justification:**

Installation of mobile data terminals in our first response fire department apparatus would provide dispatch information real time in the responding vehicles and would improve response times, reduce radio traffic to the dispatch center, improve scene management while working in the Incident Command System, and provide pre-incident plans and maps in the apparatus. The 911 surcharge fund can be used to provide a \$5,000 match. This technology is already intergrade in the Juneau Police Department vehicles. The initial startup funding is outside of the funding ability of Capital City Fire and Rescue. The department will be able to maintain the system through the Management Information Systems Department and Police Department. The hardware/software cost of this program is \$71,000.

Project Timeline:

FY15
