Amount of Funding Requested \$90,000.00

Total Funding to complete project \$90,000.00

Primary House District: 28 **Secondary House District(s):** 24,26

Primary Senate District: N **Secondary Senate District(s):** L,M

Project Description **Principal's Priority** 5

Greenhouse purchase and installation project.

Final approval of this project requires approval by the MOA that has not yet been secured.

Benefits if Project is Funded

If completed, student Response to Instruction would increase in the areas of plant cultivation, selective breeding and hydroponics. All students, life skills through gifted, would increase Response to Instruction in the biology of plants and the unique benefits of plants to the human condition. The prospect of growing plants to sell could off set costs of upkeep supplies (soil, seeds, fertilizer, trays, pots etc.)

Impacts if Project is not Funded

If not completed students Response to Instruction would be limited to only basic small plant growth and not for in-depth biological, ecological and vocational training.

of Students impacted by project 800

Project Start Year 2014

Project Finish Year 2015

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has had a public review process **Yes**
