Project Description **Principal's Priority** 1

The library tables from 1984 are used for both classes and community meetings. Because this is a flexible space and the tables have been moved often, they have become wobbly and need to be repaired often. In our computer labs the desks/chairs are not adjustable and can therefore not accommodate the wide range of sizes that middle school students come in. Replacing them with adjustable furniture will help them to find an ergonomic position within which to complete their work.

Benefits if Project is Funded
