Has this project been through a public review process at the local level and is it a community priority? Yes No

Location **Creekside Park Elementary School**

Project Title: **Technology for Mini Classroom Labs**

Amount of Funding Requested \$44,500.00

Total Funding to complete project \$44,500.00

Primary House District: 15 **Secondary House District(s):**

Primary Senate District: H **Secondary Senate District(s):**

Project Description **Principal's Priority** 1

Creekside Park Elementary is requesting grant funding for an additional 30 computers. These computers may include either desktop, laptop, or netbooks as allowed for on the ASD Approved Technology list. 5% of the total award will be dedicated to training and professional development associated with effectively integrating this equipment into the classroom environment.

Benefits if Project is Funded

There would be improved use of already existing technology, skill development in all academic areas for students and more engaging instruction.

Impacts if Project is not Funded

If funding is not secured then the school will continue to lag behind other buildings with the integration of technology driven instruction. Creekside Park does not have interactive projectors and is currently using document cameras, basic projectors, touch technology and computers. As a result, we need more computers to sustain our integration of technology.

of Students impacted by project 515

Project Start Year 2014

Project Finish Year 2015

Project has matching funds available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has had a public review process **Yes**
