**Project Description** **Principal's Priority** 3

Willow Crest would like to install soundproof dividers or walls between our three kindergarten classrooms.

### Benefits if Project is Funded

Currently our three kindergarten classrooms have collapsible walls between them, which do not provide the best sound-proofing. Our goal is to create a classroom environment that supports student learning and engagement. Having a classroom that is free of as many distractions as possible is an important part of achieving that. The excess noise that is created because of the poor soundproof dividers has the possibility of impacting instruction because of the distraction that it causes for the children.
