Project Title: **Funding for Touch Technology**

Amount of Funding Requested \$21,000.00

Total Funding to complete project \$21,000.00

Primary House District: 23 **Secondary House District(s):** 24,26

Primary Senate District: L **Secondary Senate District(s):** M

Project Description

Principal's Priority 1

Taku Elementary School is requesting grant funding for an additional 30 touch technology devices. These devices may include ipod, ipads, or other tablet devices that are already sanctioned on the ASD Approved Technology list. 5% of the total award will be dedicated to training and professional development associated with effectively integrating this equipment into the classroom environment.

Benefits if Project is Funded

There is a need for teachers and other instructional staff members to have access to touch technology at school. Providing touch technology offers opportunities for teachers and other instructional staff members to use touch technology to increase academic engagement, strengthen technology proficiency by both staff and student and prepare for the new advances in technology education. Students are expected to have a strong grasp of technology in today's global economic market so a teacher using touch technology during instruction will support this goal.

Impacts if Project is not Funded

The impact would be students with a stronger technological understanding to help compete in a global economic society. It will also offer access to technology to students who may not have such access do to their socio-economic status.

of Students impacted by project 380

Project Start Year 2014

Project Finish Year 2015

Project has matching funds are available **No**

Project has prior state funding available **No**

Project has federal funding available **No**

Project has had a public review process **Yes**
