The federal Drinking Water Capitalization Grant requires states to issue 30% of the funding as subsidies (a loan forgiveness process). This program functioned strictly as a loan program until FY2011 when this provision was added to the federal budget. In order to implement this provision, an appropriation is necessary to properly record the loan forgiveness payment as an expense in the Alaska Drinking Water Fund. Future requests will remain at 30% of capitalization grants.

**Project Description/Justification:**

The federal Drinking Water Capitalization Grant requires states to issue 30% of the funding as subsidies (a loan forgiveness process). This program functioned strictly as a loan program until FY2011 when this provision was added to the federal budget. In order to implement this provision, an appropriation is necessary to properly record the loan forgiveness payment as an expense in the Alaska Drinking Water Fund. Future requests will remain at 30% of capitalization grants. For FY2015, the amount is \$2,526,300.

Without authorization this federal year to issue these subsidies, the department will not be eligible to receive this funding and will be unable to award loan funds and principal forgiveness in FY2015.
