**Project Description/Justification:**

The Department of Military and Veterans Affairs (DMVA) is responsible for operating and maintaining an armory and warm storage building in Kodiak. The 8,500 square foot armory was built in 1959 and the 1,200 square foot storage building in 2001. This project is to repair/replace old shower stalls and hardware, and to replace dated spill prevention control and countermeasure (SPCC) equipment. Priorities and cost estimates may be changed to accommodate emergency maintenance projects, actual project costs, or other considerations.
