Project Description/Justification:

This project will repair and upgrade small field site facilities across the state. Projects include a variety of small cabin and support facility maintenance/repairs and upgrades across the state. Many of these field camps are remote and have had little maintenance in many years. Employee safety and operational issues exist in some of these field locations and need to be addressed. These small field worksites are critical to support the mission of the department, and provide safe and decent accommodations/workspace for staff.
