Project Description/Justification:

The objective of this federally required program is to ensure the lawfully required revenue is available for highway programs by increasing motor fuel tax compliance. The scope is to implement automated tests to analyze and compare tax returns filed; contact taxpayers to resolve potential compliance issues; perform analysis and audits as required to confirm taxpayer information on both interstate and international fuel imports. For the coming fiscal year, additional refund claim audits will be performed and increased compliance work will be accomplished through data-matching of imported fuel with reports from the Homeland Security Administration.

In federal fiscal year (FFY) 2012 this program resulted in the collection of an additional \$176,404 in taxes, \$28,497 in penalties, and the denial of \$34,730 in claimed refunds for a total of \$239,631 in additional revenue collected. Additional revenue collected in FFY2011 was \$121,669 and in FFY2010 was \$157,926 as a result of this program.
