 Sec1 Ch82 SLA2006 P90 L32 SB231 \$14,300,000

Project Description/Justification:

The King Salmon Airport Master Plan recommended a series of capacity and safety improvements to the airfield facility. This project implements those recommendations by constructing a parallel taxiway to reduce taxiing on the main runway and provides needed access to airport lease lots. King Salmon Airport is certificated with over 40,000 enplanements annually.
