

Knik Arm Bridge Project Development

FY2015 Request: \$55,000,000

Reference No: 56677

AP/AL: Allocation
Category: Transportation
Location: Anchorage Areawide

Project Type: Construction
House District: Anchorage Areawide (HD 11-27)

Impact House District: Statewide (HD 1-40)
Estimated Project Dates: 07/01/2014 - 06/30/2019
Appropriation: Economic Development

Contact: Jeff Ottesen
Contact Phone: (907)465-4070

Brief Summary and Statement of Need:

This appropriation provides continued support to KABATA as the State pursues a more traditional public financing option to complete the project. A public financing option has significant advantages for the State over other models. As populations in Southcentral Alaska continue to grow rapidly, so does the need for additional transportation corridors linking Anchorage and the Kenai Peninsula with the Matanuska-Susitna Borough and Interior Alaska. This appropriation will allow the State of Alaska to pursue a lower cost of financing, more budget certainty, and the ability to secure financing sooner.

Funding:	FY2015	FY2016	FY2017	FY2018	FY2019	FY2020	Total
Fed Rcpts	\$50,000,000						\$50,000,000

Prior Funding History / Additional Information:

Sec1 Ch82 SLA2006 P104 L33 SB231 \$93,600,000
 Sec1 Ch82 SLA2003 P49 L24 SB100 \$33,600,000

Project Description/Justification:

The State of Alaska, Department of Revenue has performed a financial and risk analysis which shows significant benefits in the hundreds of millions of dollars from pursuing the project using a "Public Finance" model instead of a P3 model. A "Public Finance" model requires partial funding of the project with federal and state funds to total \$300 million. The appropriation in the FY2015 budget will be used to complete design of project components, prepare bid documents, and partial funding of construction when the necessary permits are final and allow that construction to occur. Additional appropriations will be made in future years. It is anticipated that this project will generate approximately 1,500 direct jobs annually over the construction period. It will provide an essential second link between Anchorage and points north, intermodal connectivity between ports, airports and rail, and access to land and resources for economic development and housing and to support projected population growth.
