

Reapprop to Alaska Energy Authority for the Electrical Emergencies Program - NTE \$330,000

FY2016 Request: \$0
Reference No: AMD 32950

AP/AL: Appropriation

Project Type: Energy

Category: Development

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Sara Fisher-Goad

Estimated Project Dates: 06/30/2015 - 06/30/2019

Contact Phone: (907)771-3000

Brief Summary and Statement of Need:

The unexpended and unobligated balance, not to exceed \$330,000 of the estimated balance of \$12,500,000, of the appropriation made in sec. 4, ch. 5, FSSLA 2011, page 137, lines 21 - 23 (Department of Commerce, Community, and Economic Development, AEA, Mount Spurr Geothermal Project Development - \$12,500,000) is reappropriated to the Alaska Energy Authority for the electrical emergencies program.

Project Description/Justification:

The Electrical Emergencies program provides funds and technical support when an electric utility has lost, or will lose the ability to generate or transmit power to its customers and the condition is a threat to life, health, and/or property.

Emergencies of this type result in the loss of communications, lights, refrigeration systems, washeterias, water and sewer systems, and the use of other basic infrastructure and equipment.

Extended power outages during the winter months can be expensive and they compromise public safety:

- Water and sewer systems are subject to freezing and bursting
- Fire hazards increase
- Medical clinics and other public facilities may close

These emergencies may involve power plant failures and/or distribution system failures. The ability to respond to loss of power in communities is essential to their health and safety.

AEA is able to respond quickly to emergencies, often prior to the loss of power. During FY2014, AEA responded to 11 emergencies. This funding is essential the providing immediate response to communities who have lost or will lose the ability to generate or transmit power.

If AEA is unable to respond through lack of funds, the response to loss of power emergencies will be redirected to the Division of Homeland Security and Emergency Management, State Emergency Operations Center (SEOC).
