Brief Summary and Statement of Need:

Hoonah Indian Association (HIA) proposes a feasibility study and conceptual design for a district heating loop for Hoonah School/pool, autoshop/carving shed, Boys and Girls Club, HIA Cookhouse, Headstart, city hall, and a large privately owned commercial building (apartments, laundry, and store). This heating loop could potentially be operated as a heat utility by HIA. HIA is also pursuing a community greenhouse, but this is not included in the feasibility study.
