Sec4 Ch30 SLA2007 P90 L8 SB53 $26,490,100
Sec1 Ch82 SLA2006 P66 L14 SB231 $12,977,500
Sec1 Ch3 SLA2005 P53 L20 SB46 $12,835,500
Sec1 Ch159 SLA2004 P19 L24 SB283 $6,389,900

Project Description/Justification:
The Facility Construction component within the Division of Water provides technical and financial support to Alaska's communities to design and construct drinking water and sanitation facilities. Communities apply each year to the state for grants for these projects. Applications are scored based primarily on the extent to which proposed projects address critical public health needs, as well as the communities' capacity to operate and maintain the facilities. Grants are awarded to the communities with the highest ranking projects. Each year communities propose more projects than the state has available funding.
