12	12	1	3	8	Health & Social Services	Health Care Medicaid Services			Medicaid Advanced Payments Moved from FY2014 to FY2015 Due to various defects in the new Enterprise System, the department issued advances to providers who were not being paid by the system in FY2014. The department recognized these advanced payments as expenditures and manually assigned financial coding of 50-100% federal match. Legislative Audit determined the advanced payments could not be recognized as expenditures eligible for federal match because the claims were not priced or determined eligible by Medicaid rules. Legislative Audit required the department to move the expenditures from FY2014 to FY2015, creating a general fund shortfall in FY2015. The project will leverage other sources of funds, including private sector capital, Alaska Industrial Development Export Authority (AIDEA) financing, and tax credits to provide the greatest financial relief to local utility rate payers in Interior Alaska.
