

Hooper Bay - Airport Improvements and Snow Removal Equipment Building **FY2016 Request: \$3,200,000**
Reference No: 56965

AP/AL: Allocation **Project Type:** Construction
Category: Transportation **House District:** Bering Straits/Yukon Delta (HD 39)
Location: Hooper Bay **Contact:** Jeff Ottesen
Impact House District: Bering Straits/Yukon Delta (HD 39)
Estimated Project Dates: 07/01/2015 - 06/30/2020 **Contact Phone:** (907)465-4070
Appropriation: Airport Improvement Program

Brief Summary and Statement of Need:

Rehabilitate existing runway, relocate and expand apron, provide a new snow removal equipment building, relocate utilities to a new apron, reconstruct airport access road, and modify navigational aids as necessary.

 Sec1 Ch16 SLA2013 P83 L16 SB18 \$25,000,000

Project Description/Justification:

The Hooper Bay Airport has experienced significant coastal erosion over the past decade, reducing its useable length. Armor rock will be placed to protect the sheet pile wall on one end of the airport and the runway elevation will be raised to reduce snow drifting issues. The apron is currently too close to the runway per Federal Aviation Administration design standards. The aging snow removal equipment building needs to be replaced with a new facility on the new apron.

Maintenance and operating costs are anticipated to increase by \$15,500 per year beginning in FY2017.
