Prior Funding History / Additional Information:

No prior funding history.

Project Description/Justification:

The Transportation Security Administration (TSA) has a nationwide program for replacement of the EDS machines and FAI has been selected to participate. The TSA will fund the EDS machine replacement at 100% so no airport funding is required. As part of the Study/Design project it was determined to proceed with the recapitalization alternative rather than the more expensive optimization alternative. TSA and the passenger airlines utilizing FAI are the beneficiaries of this project. The project will also result in a more efficient baggage inspection and screening system enabling airlines to process bags quicker.
