

**First Time Service Projects**

**FY2017 Request: \$38,898,000**  
**Reference No: AMD 49748**

**AP/AL:** Allocation **Project Type:** Water / Sewer / Solid Waste  
**Category:** Health/Human Services **Recipient:** Various  
**Location:** Statewide **House District:** Statewide (HD 1-40)  
**Impact House District:** Statewide (HD 1-40) **Contact:** Bill Griffith  
**Estimated Project Dates:** 07/01/2016 - 06/30/2021 **Contact Phone:** (907)269-7601  
**Appropriation:** Village Safe Water and Wastewater Infrastructure Projects

**Brief Summary and Statement of Need:**

This request amends the original Governor's FY2017 capital budget request by adding \$1,998,000 of additional general fund match and an additional \$6,000,000 of federal authority for a new requested total of \$38,898,000. This project provides funding for first time service grants to communities to plan, design, and construct drinking water and sanitation facilities. The Congressional delegation was successful in securing an additional federal appropriations for Village Safe Water. 60% of the funding will provide first-time service to communities.

**Project Description/Justification:**

The Facility Construction component within the Division of Water provides technical and financial support to Alaska's communities to design and construct drinking water and sanitation facilities. Communities apply each year to the state for grants for these projects. Applications are scored based primarily on the extent to which proposed projects address critical public health needs, as well as the

---

communities' capacity to operate and maintain the facilities. High ranking projects are placed on a multi-year priority list, which identifies projects to receive funding over the next several years. The majority of project awards made under this program are eligible for grant funds made available to the state through the federal government. A portion of the federal grant monies available require the state to appropriate matching funds.

Each year communities propose more projects than available state funding. When projects are proposed, total costs are estimated based on the best information available but are subject to change. Balances in these projects may be shifted to other projects that were underestimated or, applied to other approved projects on the waiting list based on a first-ready, first-served basis.

A portion of federal and state match funds may be used for the planning and development of alternative safe drinking water and sanitation technologies.
