**Brief Summary and Statement of Need:**

The Supplemental Housing Development Program provides funds to supplement federal (Housing and Urban Development) funds to construct decent, safe and sanitary housing through regional housing authorities. Funds are used to cover housing development costs related to water distribution, sewer hookups, electrical distribution systems, road construction to project sites, site development, and energy efficiency improvements. State laws limit the use of these funds to 20% of the United States Department of Housing and Urban Development's total development cost per unit. These funds are prohibited from being used for administrative or other costs of the housing authority.

**Project Description/Justification:**

This program supplements federal housing funds provided to regional housing authorities to ensure safe, decent, affordable housing throughout Alaska.

**The projected outcomes are:**

- Construction of affordable homes in up to 20 urban and rural communities;
- Build on-site water and sewer facilities;
- Provide energy-efficient design features in homes;
- Construct roads to project sites;
- Provide electrical distribution systems;
- Retrofit homes to provide a safe, healthy, workable home environment; and
- Provide clients with new safe, energy efficient, comfortable housing.

Federal regulations prohibit the use of Housing and Urban Development funds for construction of access roads, electrical distribution systems, and certain other infrastructure costs.

Since its inception (1982—2014) the supplemental program has received \$201,569,000 which leveraged billion of federal housing dollars, for new construction or rehabilitation of 22,328 homes in 250 urban and communities.
