Project Description/Justification:

The purpose of this project is to support programs that address homelessness by providing assistance to families in imminent danger of becoming homeless or those who are currently homeless.

The projected outcomes are to:

- * Prevent near-homeless individuals and families from becoming homeless;
- * Provide homeless individuals and families assistance to obtain safe, sanitary shelter.

Established in 1993, this program enables thousands of homeless and/or near homeless families to obtain or retain safe and sanitary shelter each year. Demand for this program has increased steadily over the last five years as annual requests for the prevention and operating components exceed \$8 million per year.

This program has taken on the role of a housing trust and is the coordinated funding for homeless prevention activities in Alaska. In FY2015, \$6.1 million in state funds were awarded for 39 projects (approximately 9,000 households containing 12,800 people).

The Homeless Assistance Program (HAP) provides grants to assist nonprofit organizations, local governments, and regional housing authorities in addressing the emergency needs of homeless and near-homeless Alaskans. During the previous competitive rounds, the total amount of Homeless Assistance Program (HAP) grant requests received by AHFC has exceeded \$8 million; only \$5.9 million of those requests were funded. This program has become increasingly important as homeless assistance funding from municipal and federal sources continues to shrink.

The most recent grantees have utilized HAP funds to expand shelter facilities, develop supportive transitional housing, provide case management and rental assistance services and develop supportive housing for mental health trust beneficiaries and the homeless. All funds will be combined and administered as one program by AHFC. A portion of these funds will be used to support the planning, operation and coordination efforts of the Alaska Coalition on Housing and Homelessness and the operation of the statewide information and referral system, 211.

Inadequate funding will increase the number of homeless families in Alaska and force existing shelters to either exceed capacity or turn away clients. Families in areas where no shelter exists will be forced to live in substandard and/or overcrowded conditions, known to foster higher degrees of domestic violence and substance abuse. Low-wage earning households experiencing a family crisis will also have to contend with the likelihood of homelessness if emergency rental assistance is not available. In some cases, the homeless will cycle into the correctional or mental health system due to lack of adequate housing.
