Ongoing Operating:	0	0
One-Time Startup:	0	0
Totals:	0	0

Prior Funding History / Additional Information:

Sec1 Ch18 SLA2014 P67 L22 SB119 \$825,000

Project Description/Justification:

The existing SREB is more than 20 years old and past its useful life. The structure is too small to house the current equipment and has been damaged in attempts to get the equipment inside. The buildings insulation has deteriorated resulting in increased heating costs. In addition, there are electrical, heating, and fuel storage deficiencies that cost maintenance and operations a significant amount of money to maintain.
