**Brief Summary and Statement of Need:**

The harbor grant program maximizes local governance, promotes jobs and provides economic assistance. The program continues to show strong local interest. Seven municipalities from across the state submitted applications requesting a total of \$20,648,514 in matching state funds for FY2017. These harbor projects are locally managed and therefore require minimal department staff resources.

**Project Description/Justification:**

As directed by the Legislature, the department started in 1986 to transfer state owned harbor facilities, whenever possible, to local municipalities in order to maximize local governance. Since then, 78 harbors have been transferred. AS 29.60.800 created a program to provide state financial and economic assistance to a municipality with one of more harbor facilities by making available a 50/50 matching state grant, and it established a priority preference process for previously state owned harbors, i.e. Tier I harbors. Tier II harbors are harbors which were locally built and were never owned by the state.

Although still a new program, AS 29.60.800 continues to see strong support from the municipalities. To date, the total amount requested totals \$162.6M, which far exceeds the amount of state funds appropriated as state match. Still the department has been able to award 32 (25 Tier I's and seven Tier II's) harbor grants to the municipalities totaling nearly \$67.9M in needed local economic assistance.
