

EVOS Parks Habitat Restoration and Protection

FY2018 Request: \$2,018,930

Reference No: 61668

AP/AL: Appropriation

Project Type: Parks / Recreation

Category: Natural Resources

Location: Kenai Areawide

House District: Kenai Areawide (HD 29-31)

Impact House District: Kenai Areawide (HD 29-31)

Contact: Fabienne Peter-Contesse

Estimated Project Dates: 07/01/2017 - 06/30/2022

Contact Phone: (907)465-2422

Brief Summary and Statement of Need:

The department will restore and protect fish habitats at six park units that have been and continue to be adversely impacted by human activities, including recreational access. The six park units are within the Exxon Valdez Oil Spill (EVOS) area of impact and contain ecosystems that support numerous species affected by the spill.

Project Description/Justification:

The department strives to strike a balance between resources protection and recreational access. This project will restore and protect fish habitat and improve managed access at six park units: Kenai River Flats Unit, Eagle Rock Unit, Crooked Creek State Recreation Site (SRS), Kenai River Ranch Unit, Pipeline Crossing Unit, and Anchor River State Recreation Area (SRA). These six park units are within the EVOS area and contain fish habitats that support many species injured by the spill. Habitat restoration will use bio-engineered techniques conforming to industry standards. Protection will come in the form of elevated light-penetrating walkways and river access stairs to keep foot traffic off of sensitive riparian vegetation while still maintaining access.

This project is highly supported by the community and groups such as the Kenai River Special Management Area (KRSMA) Advisory Board, Kenai River Sportfishing Association, and the National Oceanic and Atmosphere Administration Fisheries Restoration Center.

Kenai River Flats KRSMA Riverbank Protection	\$ 287,330
Eagle Rock KRSMA Riverbank Protection	\$ 410,450
Crooked Creek SRS Riverbank Restoration	\$ 445,900
