

**Adak Hydro Power Generator**

**FY2019 Request: \$19,600**  
**Reference No: 61639**

**AP/AL:** Allocation  
**Category:** Development  
**Location:** Adak

**Project Type:** Energy  
**House District:** Bristol Bay/Aleutians/Upper Kuskokwim (HD 37)

**Impact House District:** Bristol Bay/Aleutians/Upper Kuskokwim (HD 37) **Contact:** John Springsteen

**Estimated Project Dates:** 07/01/2018 - 06/30/2023 **Contact Phone:** (907)771-3000

**Appropriation:** Alaska Energy Authority - Round IX Renewable Energy Project Grants (AS 42.45.045)

**Brief Summary and Statement of Need:**

The city of Adak currently relies only on diesel powered generators to provide electricity to households and businesses. The proposed project would rely extensively on existing infrastructure, including a pipe, dam, and penstock. The community expects a substantial reduction in fuel consumption with the addition of hydropower. The hydropower generator is expected to displace approximately 16,500 gallons of diesel fuel annually, reducing emissions and stabilizing costs. AEA recommends partial funding for feasibility study of this project.
