	1003 G/F Match	-32.3										
The Child Support Services Division has made efforts to decrease the need for physical archival storage by scanning all incoming documents into the division's proprietary NSTAR database. This has eliminated the need for physical case files. There is still a need for some archiving due to the system back-up tapes that are required to be kept off site.												
<b>Reduce Child Support Postage Costs</b>												
	Dec	-330.0	0.0	0.0	-330.0	0.0	0.0	0.0	0.0	0	0	0
	1002 Fed Rcpts	-217.8										
	1003 G/F Match	-112.2										
During FY2017, Child Support Services Division (CSSD) made a change to the frequency that the child support statements are printed and mailed out. Previously, statements were sent out quarterly; now they are sent out yearly. Parties are able to see their statements on-line via the CSSD portal at any point during the year. This change has resulted in a large decrease in postage costs.												
<b>Reduce Child Support Courier Costs</b>

The Alaska Mental Health Trust Authority (the Trust) administrative budget supports the operation of the Trust office and the Board of Trustees. The Trust Authority is tasked in statute with being trustees of the cash and non-cash assets of the legal trust, making budget recommendations for the Mental Health Budget Bill, partnering with the Department of Health & Social Services to ensure a Comprehensive Mental Health Program Plan, and providing leadership in Trust beneficiary-related issues. The Trust, a state corporation, is administratively housed in the Department of Revenue.

At the start of FY18, the Alaska Permanent Fund Corporation had more than \$59.7 billion in assets under management. As of September 30, 2017 assets had grown to more than \$61.5 billion. The rate of return for FY17 was 12.57%. The key to APFC's success has been the deliberate implementation of a strategy by the APFC Board of Trustees that began more than 10 years ago. This strategy was to create an optimal mix of internal and external management capabilities that recognized our opportunities and resources. Over the past three years, APFC active engagement and management of the Fund has generated an additional \$4.4 billion in value over the passive benchmark.

As the APFC continues to strategically bring investment management in-house, it is apparent that the division between resources directly supporting investment functions versus general operations is harder to determine. As a result, the Board's FY2019 budget merges what were formerly two allocations into a single allocation within the appropriation for the Corporation, and places it within the language section of the budget bill.

Merging the allocations consolidates resources to support the Board's current investment strategy. This allows for a holistic approach for strategic and resource planning, creating a more nimble and flexible structure from which to operate as the APFC competes with public and private sector peers in the investment markets.

The FY2019 budget includes ten new positions in investment and support roles to allow for continued growth in internally managed investments. The budget includes personal services costs for these positions, and related travel, technology, and other costs of in-house personnel. As a result, the budget for external management fees in FY2019 was lowered to reflect the assets that will be managed internally.

It is important to note that the Board of Trustees has always been transparent regarding how the appropriations to the APFC have been budgeted and spent. The budget is approved and discussed in open, public meetings, and budget materials and reports are included in public board meeting packets. Members of the public can find detailed information about the Corporation's budget, investment strategy and performance at apfc.org. Moving to the language section of the budget bill will provide the Board with necessary flexibility to better manage the APFC's resources, but will not lessen the transparency of its expenditures.
