

Vessels and Aircraft, and Facilities Annual Maintenance, Repair and Upgrades

FY2020 Request: \$1,000,000
Reference No: 43322

AP/AL: Appropriation

Project Type: Renewal and Replacement

Category: Natural Resources

Location: Statewide

House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40)

Contact: Carol Petraborg

Estimated Project Dates: 07/01/2019 - 06/30/2024

Contact Phone: (907)465-6077

Brief Summary and Statement of Need:

This is an annual request for facility, vessel, and aircraft maintenance, repair and upgrades. The project will help maintain department facilities, six research vessels used to support fishery monitoring efforts and stock assessment programs, and 15 research aircraft used to support commercial fisheries and wildlife conservation research and monitoring and intensive management programs.

Project Description/Justification:

Facilities (250.0)

The Department of Fish and Game has employees in over 40 locations around the state and operates facilities in many of these locations. These facilities include offices, bunkhouses, warehouses, workshops, cabins, laboratories, aircraft hangers, and other structures that are vital to the mission of the department. Deferred maintenance on facilities is a critical issue for the department with many of the requested projects involving life, health and safety, and facility integrity issues.

Commercial Fisheries Vessel Maintenance (500.0)

This project maintains the department's six research vessels, which are used to support fishery monitoring efforts and stock assessment programs. Typical maintenance work includes sandblasting and painting of hull and superstructure, overhauling engines and deck equipment, general yard work and inspection, repair or replacement of electronic equipment, and replacing fishing gear.

**Vessels and Aircraft, and Facilities Annual Maintenance,
Repair and Upgrades**

FY2020 Request: \$1,000,000
Reference No: 43322

The division's vessels support fishery monitoring efforts and are extensively involved in salmon, herring, groundfish, and shellfish stock assessment programs. The vessels are used by other divisions in the department, and the Department of Public Safety to carry out their operational responsibilities.

Annual maintenance of the vessels is necessary to maintain their longevity and protect the state's investment. Annual maintenance ensures that the vessels can continue to carry out their missions, as well as ensure the health and safety of the skippers and crew.

Aircraft Maintenance (250.0)

This project maintains the department's 15 research aircraft, which are used to support commercial fisheries (five aircraft), and wildlife conservation (ten aircraft) research and monitoring and intensive management programs. Typical maintenance work includes overhauling engines and landing equipment and the repair or replacement of electronic equipment.

Annual maintenance of aircraft is necessary to maintain their longevity and protect the State's investment. Annual maintenance ensures that the aircraft can continue to carry out their missions, as well as ensure the health and safety of pilots and crew.
