

**State of Alaska
FY2020 Governor's Operating Budget**

**Department of Health and Social Services
Emergency Medical Services Grants
Component Budget Summary**

Component: Emergency Medical Services Grants**Contribution to Department's Mission**

Assure adequate and competent infrastructure for Emergency Medical Services statewide.

Core Services

- Reduce preventable death, disease, and injury through a continuous cycle of recruitment, training, testing, certification, equipping, and evaluation of the regional emergency medical system.
- Mobilize partnerships to identify and solve problems that affect emergency medical services (EMS).
- Link people to medical services through pre-hospital emergency care.

Major Component Accomplishments in 2018

- Awarded seven emergency medical services regional grants to tribal health organizations and non-profits for training and testing of emergency medical services providers to ensure an adequate and competent emergency medical services workforce and volunteer services.

Key Component Challenges

The emergency medical services grants support the evolving and increasingly complex emergency medical services system as the emergency medical services system evolves. Issues affecting the emergency medical services system and the grants supporting that system include sustainable funding for paid and volunteer services, enhanced training reflective of today's clinical advancements, implementation of national emergency medical services standards, and recruitment and retention of emergency medical personnel. The challenge for the future is to align the work and distribution of the grant work with current and anticipated future system needs.

Significant Changes in Results to be Delivered in FY2020

No significant changes in results to be delivered.
