

State of Alaska FY2020 Governor's Operating Budget

Department of Labor and Workforce Development

Department of Labor and Workforce Development

Mission

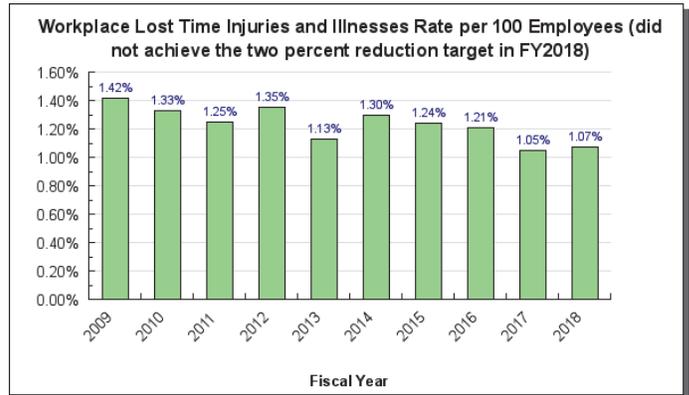

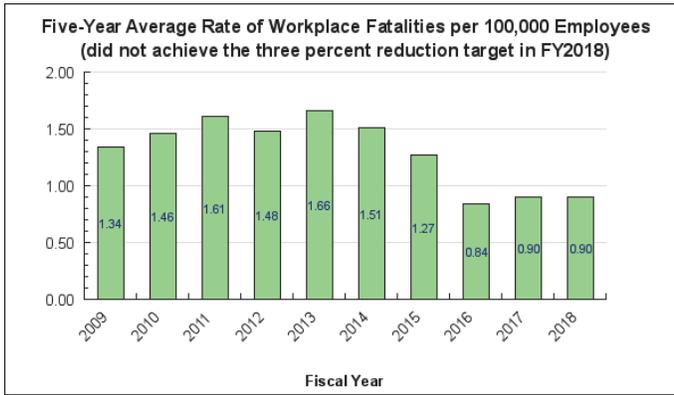

The mission of the Department of Labor and Workforce Development is to provide safe and legal working conditions and to advance opportunities for employment. AS 23.05.010

Core Services (in priority order)		UGF	DGF	Other	Fed	Total	PFT	PPT	NP	% GF

Measures by Core Service

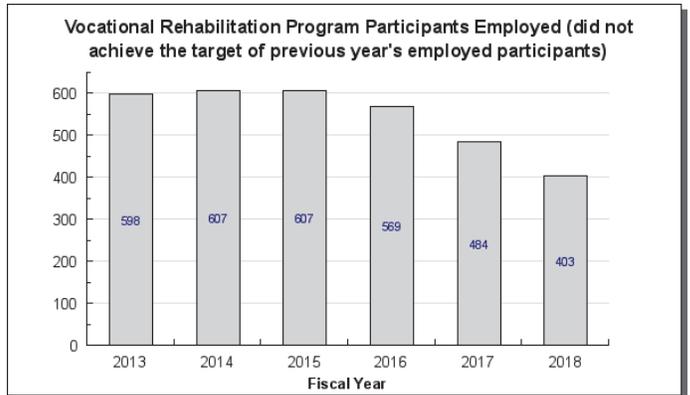

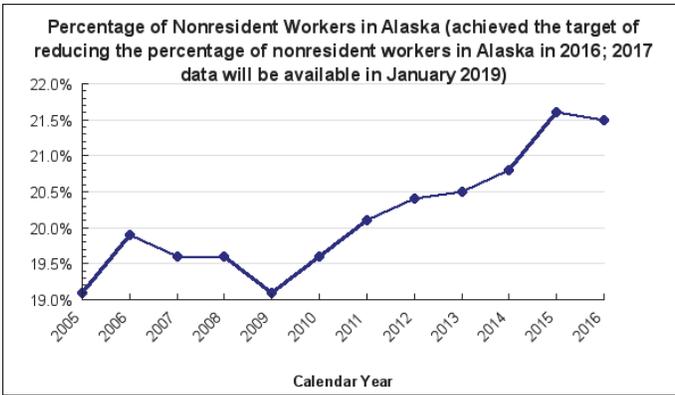

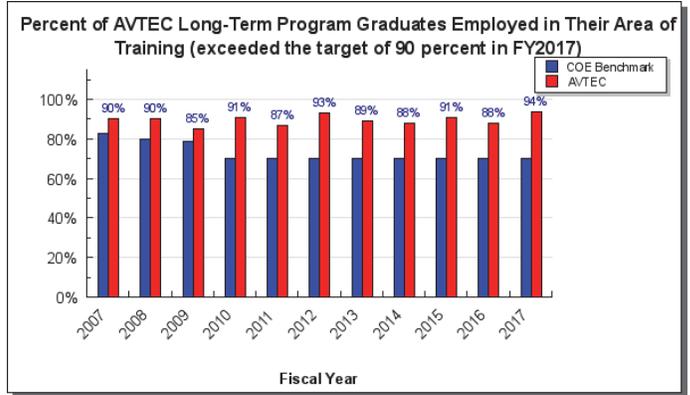

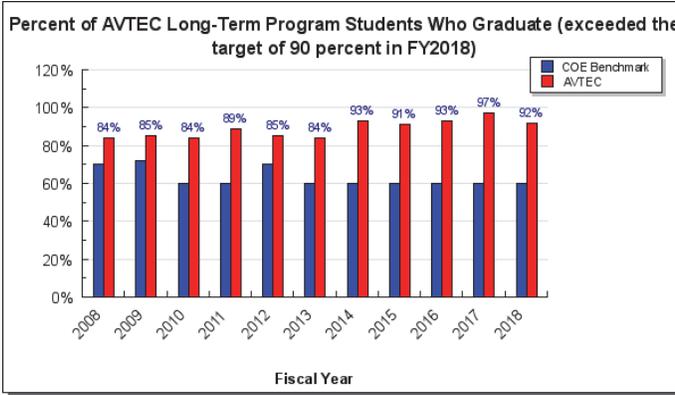

(Additional performance information is available on the web at <https://omb.alaska.gov/results>.)

1. Protect Workers: Eliminate accidental injuries, fatalities, and occupational illnesses within the departmental jurisdiction.

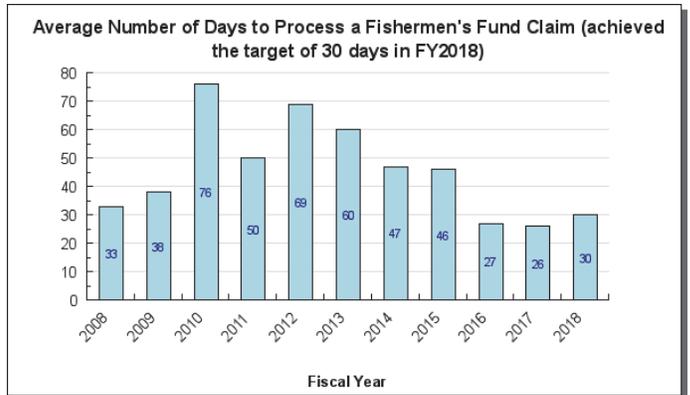

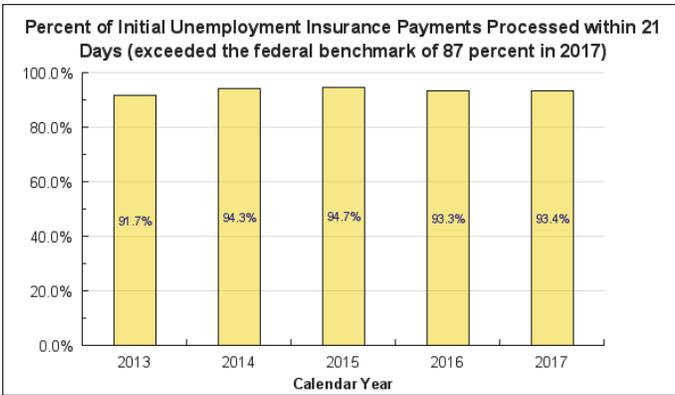

2. Workforce Development: Prepare Alaskans for Alaska's jobs.

3. Income Replacement: Eligible Alaskans receive timely and accurate income replacement determinations and payments.

Major Department Accomplishments in 2018

Provided below are department accomplishments by priority program area. Across all program areas, the department has identified cost savings and operational efficiencies resulting in lease consolidation and the elimination of positions.

Protect Workers

The Labor Standards and Safety division worked to implement Administrative Order No. 286, which ensures law-abiding state contractors are not out-bid by unscrupulous bidders who cut costs by deliberately or repeatedly depriving employees of basic rights, including minimum wage, overtime, workers' compensation, and a safe work environment.

The Wage and Hour Administration component collected \$1.2 million in wages, penalties, and interest owed to Alaska workers.

The Mechanical Inspection component conducted a total of 6,566 boiler, elevator, electrical, and plumbing inspections and 2,552 on-site construction project visits statewide to ensure contractor-licensing compliance.

The Occupational Safety and Health component worked with the Administration and the Legislature to enact legislation that strengthens safety standards for workers and maintains federal compliance for Alaska's occupational safety and health programs.

The Alaska Labor Relations Agency component issued 100 percent of its decisions in an average of 75 days, well below the target of 90 days.

Workforce Development

The Department developed the Alaska LNG Project Gasline Workforce Plan, reaffirming its commitment to maximize Alaska hire on the project.

The Division of Employment and Training Services (DETS) applied for and received a \$1.26 million federal grant to Address Alaska's Opioid crisis by providing employment and training services to Alaskans recovering from an opioid addiction and those in health care industry serving Alaskans with an opioid addiction.

DETS provided employment and training services to 12,463 Alaskans through the federal and state funded employment and training programs it administers.

DETS continued its efforts to expand apprenticeship as a proven resident hire initiative by providing consultation, guidance, and technical assistance to employers in the creation of 60 (49 registered by State of Alaska and 11 registered by United States Department of Labor) new registered apprenticeship programs in numerous occupations. These efforts resulted in the new Certified Nursing Assistant/Dementia Specialty apprenticeship program in the Alaska Pioneer Homes, and an overall increase in the number of health care Registered Apprenticeship programs (sponsors) from 22 to 67.

DETS served over 2,000 youth with disabilities through a credential career pathway program, internship programs, transition camps, and summer work experience through a federal Disability Employment Initiative grant.

The Division of Vocational Rehabilitation (DVR) successfully employed 406 disabled Alaskans through an Individualized Plan for Employment.

DVR served 802 transitioning high school seniors with disabilities in over 100 communities across Alaska, as a part of the Pre-Employment Transition Services program required by the federal Workforce Innovation and Opportunity Act.

DVR eliminated regulations that allowed sub-minimum wage for Alaskan workers who experience disabilities.

Alaska Vocational Technical Center (AVTEC) students achieved a 92 percent graduation rate.

AVTEC responded to employer workforce demand for shore side boat maintenance employees by developing a Marine Vessel Maintenance and Repair suite of training courses that can be customized for small shipyard employers and employees.

Income Replacement

The Division of Workers' Compensation (WC) worked with the Administration and the Legislature to enact legislation to realize efficiencies in Alaska's workers' compensation system and help combat worker misclassification by establishing a clear statutory definition of independent contractor.

WC continued efforts to address Alaska's high Workers' Compensation premiums with promulgation of the Medical

Services Review Committee recommendations to reduce WC health care costs.

WC finalized 72 failure to insure cases resulting in a total of \$2.4 million in penalties to be deposited into the Alaska Workers' Compensation Benefits Guaranty Fund, which pays benefits to workers injured while working for employers out of compliance with the Alaska Workers' Compensation Act.

The Unemployment Insurance (UI) component paid benefits to 34,117 claimants totaling over \$110 million.

UI has collected approximately \$4.4 million dollars to date through the Treasury Offset Program (TOP), which allows the garnishment of IRS tax returns of claimants who owe the UI Trust Fund due to fraudulent claims.

UI initiated several rapid response meetings due to the mass layoffs of more than 500 workers. Rapid response meetings are critical in educating laid off workers about the UI program, filing requirements, and available reemployment services.

The Disability Determination component processed 5,550 claim requests for Social Security Benefits.

Key Department Challenges

Given an unrestricted general fund cut of 38 percent from FY2015, the department is challenged with finding further cost savings without statutory changes. Statutory changes often take considerable time and effort to achieve. Provided below are additional challenges by priority program area.

Protect Workers

The Division of Labor Standards and Safety (LS&S) is challenged with turnover, which makes it difficult to maintain a highly skilled staff to meet program goals, including inspections.

LS&S is also challenged with upholding worker protections due to unpredictable legal costs associated with wage and hour, and occupational safety and health cases. These legal costs can quickly exceed budgeted amounts.

Workforce Development

The Division of Employment and Training Services is challenged with implementing a new information system to meet performance and reporting requirements of the Workforce Innovation and Opportunity Act.

The Alaska Vocational Technical Center is challenged with balancing the annual maintenance and operation of its facilities with unplanned emergency repair work required to address immediate health and safety issues.

Income Replacement

The Division of Workers' Compensation is challenged to realize further efficiencies and program improvements without statutory changes.

The Unemployment Insurance component is challenged with maintaining service levels given high staff turnover and a reduction of federal funds.

The Disability Determination program is challenged with implementing the Social Security Administration's (SSA) decision to reinstate the reconsideration level of review in Alaska. This includes hiring and training additional SSA-funded employees to process the workload.

Significant Changes in Results to be Delivered in FY2020

By the end of FY2020, the Division of Employment and Training Services will be using the single common intake system to integrate both job seeker and unemployment insurance services.
